

# CANCER COACHING

## community

### *Coaching people affected by cancer to live well*

The **Cancer Coaching Community (CCC)** is a newly founded community of professional coaches in the UK who coach people affected by cancer, to support them to move forward from their cancer experience. What's unique about this group is that ALL coaches have direct or indirect cancer experience and have a wide knowledge and understanding about the impact of cancer.

**By coaching we mean** providing an holistic blend of coaching methodology & support, enabling individuals to deal successfully with the impact of cancer on their lives and to move forward from it in the way that is right for them.

#### **For individuals:**

- Find a coach or an event to improve self-management and resilience
- Raise awareness of cancer coaching

#### **For organisations:**

- Collate and share knowledge of the practice and benefits of cancer coaching
- Develop proposals for how cancer coaching can help healthcare professionals, employers and society to meet the growing demand for after-cancer care and reduce costs
- Provide the focal point for research into the practice and benefits of cancer coaching
- Collaborate with cancer and wellbeing organisations to increase awareness
- Meet the growing demand for cancer coaching and promote & facilitate a national cancer coaching service
